

Westford Conservation Committee Mtg. 8/27/08

Attendees: Chris Dawson, Pat Hechmer, Chuck McGill, Mike Nelson, Mark Peloquin, Mark Winer

Conservation

Sub-committee continues working in updates to Natural Resources section of Town Plan with particular emphasis on defining terms.

Trails

WCC was informed that when using school trails for an official event (like the upcoming nature walk sponsored by the WCC) a form has to be filled out and filed with the school

At next WCC meeting, the Trails Committee was asked to provide a status on the following: work preliminary to applying for grant to improve the Goodrich trail; names and map for school trails; closure with landowners whose permission the WCC is seeking to use an existing trail on private lands. Research is also being done to confirm whether there may be an existing Town ROW in this area.

Other...

T-shirts were sold at the town's 4<sup>th</sup> of July event

The WCC continued its discussion regards its open position. There is WCC interest and interested candidates who would like to serve on both the Planning Commission and the WCC. This arrangement would require each commission to slightly alter its meeting times to accommodate both commission's meetings on the same night.
