Meeting convened at 8:02 a.m.

**SEYMOUR TRAIL SITE VISIT**

Explained to those present that our primary goals for this visit were to mark the centerline of the right-of-way, tour the trail and hear any concerns of those present.

After a brief discussion, the centerline of the right-of-way was agreed upon and marked as we walked the trail.

Primary concerns voiced by those present regarded the flow of runoff water and the potential impacts of altering the current flow direction due to trail improvements.

Dave and John discussed contacting Jim Ryan to consult with him regarding trail design and the Agency of Natural Resources to see what permits might be required for this potential trail improvement project.

Meeting adjourned at 8:43 a.m.

Respectfully Submitted,

John Quinn  
Selectboard Chair
